-Painting Surfaces:

Canvas, panel or board, primed and ready to paint on. You will need 3 smaller sizes, roughly 11"x 14" - 16"x 20" for daily exercises and one larger surface for your main project, roughly 24" or more. Keep in mind the larger canvas will be for a 3 day painting. You may want to use a toned or stained surface (dry to touch) as opposed to bright white canvas/panel. I recommend something earthy, fairly neutral and not too dark think about the color of raw canvas. I will be using a toned ground for my demos.
